transforming financial assets (financial intermediaries): transform liabilities into assets, depository institutions (i.e. CBs, S&Ls, CUs), non-depository (Insurance-life and P&Cs, pension funds, finance [including captive companies]); exchanging financial assets on behalf of customers (B/D); exchanging financial assets for own account (principal-B/D); assisting in the creation of financial ...

### What Is the Role of Financial Institutions?

There are two types of financial institutions: depository institutions and nondepository institutions. Depository institutions, such as banks and credit unions, pay you interest on your deposits and use the deposits to make loans. Nondepository institutions, such as insurance companies, brokerage firms, and mutual fund companies, sell financial products. Many financial institutions provide both depository and nondepository services.

### What are the 9 major financial institutions?

Financial institutions engage in activities involving the collection or use of personal information outside of providing consumer financial products and services, and such activities—generally not subject to the GLBA—could be subject to the CCPA. Possible examples include when financial institutions interact with individuals (e.g
