What is the 80/20 Principle? The 80/20 Principle tells us that in any population, some things are likely to be much more important than others. A good benchmark or hypothesis is that 80 per cent of results or outputs flow from 20 per cent of causes, and sometimes from a much smaller proportion of powerful forces.

80-20 Rule Definition - Investopedia

The 80 20 rule is one of the most helpful concepts for life and time management. Also known as the Pareto Principle, this rule suggests that 20 percent of your activities will account for 80 percent of your results. This being the case, you should change the way you set goals forever.
