Development Economics, also called Economics for Development, studies how to help low income countries become wealthier, i.e. nations that are going through the transition from being an agricultural economy to an industrial one. Development economics shows how economic analysis can help us better understand the big themes of this century. Globalization and trade, poverty and wealth inequality, for example, are the big themes of the century.

Coronavirus: A visual guide to the economic impact - BBC News

Asset-based Community Development is an inversion of the traditional way that economic development has been done. While economic development used to be done by focusing on the negatives in a community (such as high unemployment or low levels of education) and then trying to alleviate those things, ABCD involves looking at the assets of your community and highlighting what already exists.
