Industry 4.0: The Future of Productivity and Growth in ...

In "The Future of Industrial Man," Peter F. Drucker has produced an important book -- one which, like most such books, a difficult read. Intended as a companion to "The End of Economic Man: The Origins of Totalitarianism," it arguably does a better job of explaining those origins, tracing them to the Enlightenment-era enthronement of human reason as a perfect vehicle for discerning the social good -- a belief which admits no possibility of freedom and therefore must necessarily lead

to despotism.
