Whereas it is essential, if man is not to be compelled to have recourse, as a last resort, to rebellion against tyranny and oppression, that human rights should be protected by the rule of law,

Protecting the environment using human rights law

International human rights law (IHRL) is the body of international law designed to promote human rights on social, regional, and domestic levels. As a form of international law, international human rights law are primarily made up of treaties, agreements between sovereign states intended to have binding legal effect between the parties that have agreed to them; and customary international law.

International human rights law - Wikipedia

Human rights are the most fundamental and important of rights. They are the rights that the government in the United States spelled out in the Bill of Rights and the Constitution, and they are the rights that the United Nations aims to protect for all people. These rights would exist even without government protection or intervention.
